LOKESH RAWAT

Srinagar Garhwal, Uttarakhand, India | +91 8979518288 | rawatlokesh426@gmail.com
LinkedIn: linkedin.com/in/lokesh-rawat-643875373 | GitHub: github.com/LokeshRawat77

PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, 2026) with two internships and three projects in Python development and data analysis. Cleaned and analyzed 10,000+ e-commerce sales records with Pandas and NumPy, built a REST API with FastAPI and SQLAlchemy, and developed an LLM-based resume parser using the Groq API. Skilled in SQL, MySQL, Power BI and Excel. Seeking an entry-level Python Developer or Data Analyst role.

TECHNICAL SKILLS

Programming:	Python, SQL, Object-Oriented Programming (OOP)
Data Analysis:	Pandas, NumPy, Excel, Power BI, Data Cleaning, Data Preprocessing, Data Transformation, Data Validation, Exploratory Data Analysis (EDA), Data Visualization, Reporting, Business Insights
Backend and APIs:	FastAPI, Flask, Django, RESTful APIs, CRUD Operations, ORM, SQLAlchemy, Pydantic, Swagger UI, Postman, API Testing
AI and LLM:	LLM Integration, LangChain, NLP, Prompt Engineering, Groq API
Databases:	MySQL, SQLite, SQL Queries, Relational Database Design
Computer Networks:	OSI and TCP/IP Models, IPv4 Addressing, DNS, DHCP, LAN/WAN, HTTP/HTTPS, Basic Routing and Switching
Tools:	Git, GitHub, Version Control, Jupyter Notebook, Debugging

PROFESSIONAL EXPERIENCE

Data Science and Analytics Intern | The Developers Arena (Remote) Jun 2026 – Aug 2026

- Preprocessed, validated and transformed datasets using Python, Pandas and NumPy to prepare analysis-ready data.
- Identified and fixed data inconsistencies, improving data quality for project workflows.
- Built data visualizations and analytical reports that communicated insights and supported project deliverables.

Python Development Intern | InterPe (Remote) Sep 2024 – Oct 2024

- Developed Python application features using modular, maintainable code.
- Debugged and tested Python scripts to fix errors and improve reliability.
- Used Git and GitHub for version control and collaboration.

PROJECTS

AI-Powered Resume Parser and Job Matcher GitHub

Python, Groq LLM API, NLP, Pydantic

- Built an LLM-powered app that parses PDF and DOCX resumes into validated, structured data (skills, experience, education, projects).
- Analyzed job descriptions to extract required skills and generate candidate match scores and rankings.
- Used Pydantic models to validate LLM output, so extracted resume data follows a consistent, structured format.

FastAPI Todo REST API with Database Integration GitHub

Python, FastAPI, SQLAlchemy, SQLite, Swagger UI, Postman

- Developed a RESTful API with full CRUD operations, query parameters and a relational schema using SQLAlchemy ORM.
- Documented endpoints with Swagger UI and tested every route using Postman.
- Integrated a SQLite database through SQLAlchemy ORM to store and manage todo data persistently.

Sales Analytics and Data Manipulation GitHub

Python, Pandas, NumPy, Data Visualization

- Cleaned and analyzed 10,000+ e-commerce sales records to find sales trends, purchasing patterns and customer behavior.
- Identified top customers, best-selling products and high-revenue regions; delivered visualizations and business recommendations.
- Used Pandas and NumPy for data cleaning, grouping and aggregation to turn raw sales data into clear insights.

EDUCATION

B.Tech in Computer Science and Engineering Jun 2022 – Aug 2026

Government Institute of Technology Gopeshwar, Uttarakhand | Score: 78%

Diploma in Information Technology May 2019 – May 2022

Government Polytechnic Srinagar Garhwal, Uttarakhand | CGPA: 7.8

CERTIFICATIONS

- Data Science and Analytics Internship Certificate, The Developers Arena (2026)
- Introduction to LangChain with Python (2026)
- Python Programming Specialist, Cisco Networking Academy
- Git and GitHub Version Control, GeeksforGeeks
